Release 1

AHC60422 Advanced Diploma of Conservation and Ecosystem Management

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Qualification Description

This qualification describes the skills and knowledge for individuals working in regional and senior management roles in conservation and ecosystem management.

Individuals with this qualification analyse, design and execute judgements using wide ranging technical, conceptual and skills and knowledge. Their knowledge base may be highly specialised or broad within the conservation and ecosystem management field. These individuals are often accountable for group outcomes and the overall performance of a conservation and ecosystem management workplace.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

To achieve this qualification, competency must be demonstrated in:

- 8 units of competency:
 - 0 core units plus
 - 8 elective units.

Elective units must ensure the integrity of the qualification's Australian Qualification Framework (AQF) alignment and contribute to a valid, industry-supported vocational outcome. The electives are to be chosen as follows:

- 6 units must be from the electives listed below
- the remaining 2 units may be from the electives listed below or any currently endorsed Training Package or accredited course.

Elective Units

An asterisk (*) next to the unit code indicates that there are prerequisite requirements which must be met when packaging the qualification. Please refer to the Prerequisite requirements table for details.
