AHCBAC308 Undertake agricultural crop harvesting activities

Release: 1

AHCBA308 Undertake agricultural crop harvesting activities

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to undertake agricultural crop harvesting activities.

All work must be carried out to comply with workplace procedures, work health and safety and biosecurity legislation and codes, and sustainability practices.

Operating machinery carries risk and candidates should observe all enterprise and manufacturer's requirements.

This unit applies to individuals who work under broad direction and take responsibility for own work including limited responsibility for the work of others. They use discretion and judgement in the selection and use of available resources and complete routine activities.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Broad acre cropping (BAC)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare to harvest agricultural crops	1.1 Determine requirements for the work to be undertaken, method and order of harvesting from the harvest strategy and confirm with supervisor 1.2 Identify work health and safety hazards in crop harvesting and assess risks

Element	Performance criteria
	1.3 Select and maintain appropriate personal protective equipment 1.4 Identify environmental impacts of harvesting the crop and take required action 1.5 Complete windrowing or swathing appropriately 1.6 Sample crop for moisture content and report to supervisor to assess timing of harvest 1.7 Identify hygiene standards for the crop and the paddock from the harvest strategy or the crop storage plan
2. Prepare the harvesting equipment	2.1 Clean harvesting machinery and other equipment appropriately 2.2 Assess and service all machinery and equipment, replace required parts and adjust for harvesting conditions 2.3 Dispose of all containers, leftover fluids, waste and debris from the maintenance and servicing work appropriately 2.4 Record all maintenance and servicing activities appropriately
3. Harvest crops	3.1 Implement work health and safety controls for crop harvesting 3.2 Follow and complete the harvest strategy for each paddock, including implementing fire prevention measures 3.3 Operate harvesting machinery and ancillary equipment appropriately and to suit crop conditions 3.4 Apply technology to ensure most efficient performance of operations 3.5 Maintain the hygiene of all surfaces that come into contact with the crop 3.6 Check regularly and adjust harvester and ancillary equipment where required
4. Complete harvesting operations	4.1 Clean and store equipment, attachments and other ancillary equipment appropriately 4.2 Apply any required insecticides appropriately 4.3 Dispose of all containers, leftover fluids, waste and debris according to enterprise policies and minimising the impact on the environment 4.4 Move harvesting equipment is moved between sites and on public roads appropriately 4.5 Complete all required records and documentation appropriately 4.6 Apply enterprise biosecurity policies

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCBA308A Undertake agricultural crop harvesting activities.
