Assessment Requirements for AHCBEK305 Extract honey

Release: 1

Assessment Requirements for AHCBEK305 Extract honey

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- correctly wear appropriate personal protective equipment (PPE)
- Identify hazards and use equipment safely
- distinguish between honey cells and brood cells
- extract honey in compliance with Quality Assurance (QA) and food safety requirements
- sample honey to meet Quality Assurance and food safety requirements
- store extracted honey to reduce the risk of spoilage.

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices of honey extraction
- biosecurity protocols for honey extraction and movement
- equipment and its maintenance requirements
- food safety systems and requirements
- quality assurance requirements designed for the honey industry
- the effect of heat and extraction processes on honey.

Assessment Conditions

Assessors must satisfy current standards for RTOs.
