An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that the individual has managed at least one capital works project, including:

- negotiated with contractors and suppliers, and internal and external clients
- developed a strategy to achieve project outcomes and client requirements
- monitored, evaluated and reported on progress of works
- resolved disagreements and disputes satisfactorily
- evaluated and reported on project achievements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- human resource management and policies for the enterprise
- project management systems
- project management tools and techniques
- cost schedule control systems
- enterprise procurement guidelines
- enterprise project management policies
- risk management techniques
- business and commercial issues relevant to business/project
- basics of contract law
- physical resource management.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in a workplace setting or an environment that accurately represents a capital works site
- resources, equipment and materials relevant to capital works project
- specifications:
 - capital works specifications and objectives
- relationships:
 - construction team.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
