Application

This unit of competency describes the skills and knowledge required to contribute to a regional planning process.

This unit applies to those whose job role requires them to contribute to and assist in the regional planning process under the broad direction of technical specialists, facilitator and/or group and panels. These individuals take personal responsibility and exercise autonomy in managing and undertaking complex work and analyse, design and communicate solutions to sometimes complex problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Community Coordination and Facilitation (CCF)

Assessment Requirements for AHCCCF505 Contribute to regional planning process

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- participate in panels and group discussion on the planning process
- collect information on local land management issues and relate to economic, industry and social factors
- submit views on natural resource management priorities and solutions
- review draft plans in terms of impact on the local and wider region to identify deficiencies and propose solutions
- participate in community consultation

Knowledge Evidence

The candidate must demonstrate knowledge of:

- local community issues including economic, industry and social factors
- natural resource management issues for local area or region
- legislative, program and other requirements for regional plans and the planning process
- regional planning concepts
- natural resource management processes
- consultation approaches

Assessment Conditions

Assessors must satisfy current standards for RTOs.
