Release: 1

AHCCCF510 Contribute to regional planning process

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Application

This unit of competency describes the skills and knowledge required to contribute to the regional planning process in the context of natural resource management.

The unit applies to individuals who apply specialised skills and knowledge to contribute to and assist in the regional planning process. These individuals take personal responsibility and exercise autonomy in undertaking complex work. They analyse and synthesise information and analyse, design and communicate solutions to sometimes complex problems.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Community Coordination and Facilitation (CCF)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Participate in panels and group discussion on the planning process	1.1 Submit natural resource management issues, economic and social factors, and potential solutions or directions to groups for discussion 1.2 Ensure contributions are positive to assist group to develop course of action and recommendations 1.3 Structure contributions to discussions with panels and groups to comply with legislative, program and workplace requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
2. Collect data and background information	2.1 Collect information on local natural resource management issues and survey local groups, projects and programs 2.2 Make arrangements for additional data to be collected for input into analysis and the planning process
3. Contribute to the plan	3.1 Highlight local natural resource management issues to the planning team for inclusion in planning considerations 3.2 Explore relationship between local and wider issues to submit views on natural resource management priorities and solutions 3.3 Review draft plans in terms of impact on the local and wider region to identify deficiencies and propose solutions 3.4 Ensure participation in community consultation assists the regional planner to obtain feedback on the draft plan 3.5 Develop proposal for improvement to draft plan based on natural resource management and regional context

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Identify and interpret information regarding local natural resource management issues
Writing	Use clear language, accurate industry terminology and logical structure to develop proposals
Oral communication	Contribute to group discussions, using clear language and standard industry terminology to discuss natural resource management issues, economic and social factors, and potential solutions

Assessment Requirements for AHCCCF510 Contribute to regional planning process

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has contributed to at least one regional planning process and has:

- participated in panel and group discussion on the planning process
- collected information on local land management issues and those related to economic, industry and social factors
- submitted views on natural resource management priorities and solutions
- reviewed draft plans in terms of impact on the local and wider region to identify deficiencies and propose solutions
- participated in community consultation
- developed proposal for improvement to draft plan.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- local community issues, including economic, industry and social factors
- consultation approaches used in regional planning processes
- natural resource management issues for local area or region
- legislative, program and other requirements relevant to regional plans and the planning process
- natural resource management processes
- regional planning concepts
- processes for development of draft plans.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - draft plans
 - computer hardware and software
 - legislative, program and other requirements relevant to regional plans and the planning process
- relationships:
 - panel and group members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
