Assessment Requirements for AHCCOM204 Assess and receive raw materials for composting

Release: 1

Assessment Requirements for AHCCOM204 Assess and receive raw materials for composting

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has, on at least one occasion, received raw materials for composting and has:

- inspected raw materials for contamination and acceptability against established criteria
- measured quantity for billing
- operated a weighbridge to estimate material quantity
- provided clear directions to drivers entering site
- received raw material for processing at a compost facility
- recorded raw material quantity and calculated fee.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of composting raw material assessment
- characteristics of a range of raw green waste
- enterprise policies and procedures, including workplace health and safety procedures
- safety risks to self and product posed by contaminants in raw materials and products
- tools and equipment used in compost receivals process, including operation and maintenance
- standard risk control measures used in the industry to minimise risk associated with handling raw materials and products.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated on a farm or commercial scale compost processing plant or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - tools and loading equipment
 - personal protective equipment
- specifications:
 - workplace safety procedures
 - compost materials specifications
- relationships:
 - delivery driver.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
