Release: 1

AHCILM504 Develop strategies for Indigenous land or sea management

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to develop strategies for contemporary land or sea management from an Indigenous perspective.

All work is undertaken according to Community guidelines and cultural protocols.

This unit applies to individuals who work autonomously and apply judgement and defined responsibility in known or changing contexts and within broad but established parameters.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Indigenous Land Management (ILM)

Assessment Requirements for AHCILM504 Develop strategies for Indigenous land or sea management

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- research contemporary Indigenous land and sea management practices
- develop management strategies for a specified area based on contemporary Indigenous land and sea management practices
- identify appropriate source of funds and apply for funds according to organisational requirements
- consult with others on strategies, priorities and project works
- develop plans to enterprise standards
- apply work health and safety practices in the context of own work
- apply biosecurity measures in the management strategies
- apply appropriate sustainability practices in the management strategies

Knowledge Evidence

The candidate must demonstrate knowledge of:

- Indigenous land/sea management practices
- cultural customs and heritage
- components of State land acts/legislation relevant to Indigenous land or sea management
- relationship between natural and cultural management processes

Assessment Conditions

Assessment must comply with Community protocols and be supported by Elders and Custodians of Country.

Assessors must satisfy current standards for RTOs.
