Assessment Requirements for AHCINF205 Carry out basic electric fencing operations

Release: 1

Assessment Requirements for AHCINF205 Carry out basic electric fencing operations

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has carried out basic electric fencing operations on at least one occasion and has:

- interpreted work plans and confirmed with supervisor
- identified workplace health and safety hazards and risks, and reported to supervisor
- applied workplace health and safety requirements, including fitted and used personal protection equipment (PPE)
- selected, prepared, checked and safely used tools and equipment applicable to basic electric fencing operations
- replaced, or separated for repair, tools and equipment identified with faults
- identified and recovered re-usable electric fencing materials
- erected and repaired electric fencing according to supervisor instructions
- cleaned and tidied up work area and disposed of or recycled waste
- reported basic electric fencing operations and unserviceable tools and equipment.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- uses and structures of electric fence types
- portable and mains power electric fences
- common electric fencing hazards and safety
- workplace requirements applicable to health and safety in the workplace for carrying out basic electric fencing operations, including appropriate use of PPE
- uses and types of electric fencing tools, materials and equipment and their maintenance
- installation, construction and repair techniques for electric fences
- manufacturer operating instructions for electric fencing equipment.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - electric fencing tools, equipment and material
 - PPE applicable to basic electric fencing operations
- specifications:
 - workplace health and safety procedures relevant to basic electric fencing operations
 - workplace documents, including processes, instructions and job specifications relevant to basic electric fencing operations
 - manufacturer operating instructions for electric fencing equipment
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
