Assessment Requirements for AHCIRG102 Support irrigation work

Release: 1

Assessment Requirements for AHCIRG102 Support irrigation work

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 4.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that the individual has supported irrigation work on at least two occasions, and has:

- prepared materials, tools and equipment for irrigation work
- applied safe work practices
- undertaken irrigation work as directed
- cleaned up on completion of work.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices for supporting irrigation work
- preparing for irrigation work and cleaning up on project completion
- irrigation tools and equipment
- safe work practices used in irrigation work
- basic construction techniques used in irrigation work
- repair and maintenance of irrigation fittings.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to assisting supporting irrigation work
 - irrigation maintenance tools and equipment

- personal protective equipment applicable to supporting irrigation work
- relationships:
 - supervisor, staff and customers
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
