Assessment Requirements for AHCLPW401 Process applications for changes in land use

Release: 1

Assessment Requirements for AHCLPW401 Process applications for changes in land use

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- establish client intentions and requirements
- communicate the process, policies and relevant legislation to the applicant
- discuss the scope and application of the submission in light of preliminary discussion
- present findings and feedback to the applicant
- provide further information and explain the appeal process if application is rejected
- explain provisions within Federal and State legislation or relevant land use to landholder
- interpret aerial photographs, maps and geographical information systems to identify particular landmarks and areas
- undertake investigations to determine scope and impact of request

Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevance and impact of Federal and State legislation and regulations related to land use
- catchment characteristics of land in question
- vegetation types native to area
- signs and landmarks in aerial photographs, maps and geographic information system (GIS)
- agency policies and procedures
- formats for presenting information to clients
- process for applying for changes in land use and process for appeals if application is rejected

Assessment Conditions

Assessors must satisfy current standards for RTOs.
