AHCLPW402 Implement land and sea management practices

Release: 1

AHCLPW402 Implement land and sea management practices

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to implement sustainable land and sea management practices.

This unit applies to those whose job role includes implementing sustainable Indigenous and non-Indigenous land and sea management practices required for a given area according to land and sea management plans and strategies, Community guidelines and cultural protocols.

This unit applies to individuals who have limited responsibility for others and apply judgement in known or changing contexts.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Lands, Parks and Wildlife (LPW)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Determine appropriate Indigenous land and sea management practices	1.1 Observe cultural protocols in discussing and evaluating Indigenous land and sea management practices 1.2 Review land and sea management plans and priorities 1.3 Assess the most appropriate Indigenous practices for a specified area 1.4 Make comparisons with non-Indigenous land and sea management practices

Element	Performance criteria
	1.5 Define and quantify technology, materials and resources for Indigenous management practices for a specific area or practice 1.6 Identify appropriate persons to provide advice and information on Indigenous land and sea management practices 1.7 Determine cultural protocols and customs in relation to disclosure of information on Indigenous land and sea management practices
2. Determine appropriate non-Indigenous land and sea management practices	2.1 Identify legislative, enterprise and best practice parameters governing non-Indigenous land and sea management practices 2.2 Review land and sea management plans and priorities 2.3 Determine the most appropriate non-Indigenous practices for a specified area 2.4 Make comparisons with Indigenous land and sea management practices 2.5 Define technology, materials and resources for non-Indigenous land and sea management practices 2.6 Identify and access relevant information sources on non-Indigenous land and sea management practices
3. Develop approach to implementation of land and sea management practices	3.1 Develop options based on comparison of Indigenous and non-Indigenous land and sea management practices 3.2 Consult appropriate persons about available options 3.3 Prepare staging strategy for preferred option with realistic costs 3.4 Consult and involve owners and stakeholders of specific area in setting priorities for management work and practices
4. Undertake land and sea management practice	4.1 Undertake land and sea management practices in compliance with agreed approach 4.2 Undertake work according to enterprise guidelines, industry best practice and community expectations and work health and safety policies and procedures 4.3 Respect cultural customs and protocols throughout performance of work 4.4 Ensure practices are carried out by appropriately authorised persons

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCLPW402A Implement land and sea management practices.

Assessment Requirements for AHCLPW402 Implement land and sea management practices

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- consult with authorised Community members to determine appropriate Indigenous land and sea management practices using accepted protocols
- determine appropriate non-Indigenous land and sea management practices
- develop and discuss preferred options to implement land and sea management practices with Indigenous groups and other stakeholders
- undertake land and sea management practices in compliance with agreed approach and cultural customs and protocols
- apply work health and safety practices in the context of own work

Knowledge Evidence

The candidate must demonstrate knowledge of:

- cultural protocols of local Aboriginal Communities that relate to land and sea management activities
- Indigenous land and sea management practices
- non-Indigenous land and sea management practices
- technology used for environmental management
- implementation strategies for land and sea management
- work health and safety, environmental legislation and codes of practice

Assessment Conditions

Assessor must satisfy current standards for RTOs.
