Assessment Requirements for AHCLPW408 Implement land and sea management practices

Release: 1

Assessment Requirements for AHCLPW408 Implement land and sea management practices

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has, on at least one occasion, reviewed Indigenous and non-Indigenous land and sea management practices and determined and implemented an approach.

There must also be evidence that the individual has:

- consulted with key Indigenous and non-Indigenous stakeholders to determine land and sea management practices
- developed preferred options for land and sea management practices
- implemented land and sea management practices according to agreed approach and cultural customs and protocols
- applied workplace health and safety practices.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- cultural protocols of local Indigenous communities that relate to land and sea management activities, including:
 - cultural privacy, secrecy and confidentiality
 - land and sea rights and ownership
 - sacred and significant cultural sites
 - Indigenous artefacts
- Indigenous land and sea management practices
- non-Indigenous land and sea management practices
- planning and prioritising work activities, including:
 - sequencing and staging works
 - working within a budget

- resource requirements for land management practices, including:
 - human
 - technology
 - budget and financial constraints
 - equipment
 - materials
- strategies for implementing land and sea management practices
- workplace health and safety, environmental legislation and codes of practice.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a natural land and sea environment, or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - resources relevant to the land and sea management strategy
- specifications:
 - specific workplace documents such as policies, procedures, processes, forms
 - workplace plans and priorities for land and sea management
 - legislation/codes of practice
- relationships:
 - Indigenous and non-Indigenous stakeholders.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
