Assessment Requirements for AHCLPW507 Implement natural and cultural resource management plans

Release: 1

Assessment Requirements for AHCLPW507 Implement natural and cultural resource management plans

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has managed the implementation of at least one natural resource management plan and one cultural resource management plan.

There must also be evidence that the individual has:

- determined priorities within the plan, including:
 - areas of high significance
 - level of risk to sensitive areas
 - potential for revenue generation
- identified projects from priorities, including:
 - new or continuing natural and culturally significant works
 - requirement for new procedures
 - new and continuing development or maintenance projects
- included financial management for the project, including:
 - costed the activities
 - applied for funding
 - developed a budget
- briefed and trained work team to implement activities safely according to workplace policies, procedures and management plan
- applied workplace health and safety, biosecurity and sustainability policies to the development of procedures and program.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- approaches to management of natural and cultural resource management for parks and reserves, including:
 - assessing and identifying priorities in plans for conservation, places of high significance and threats, managing risks, and generating revenue
 - developing procedures
 - developing schedules and setting timelines
- human resource management, including:
 - communicating with work team
 - training
 - preparing work team for work activity
- financial management for management plan implementation, including:
 - costing project activity
 - preparing budgets
 - monitoring budgets
- project management practice
- legislation and government policies and their purpose for resource managers, including:
 - levels of governance
 - regional specific regulations
 - catchment plans
 - health and safety
 - sustainable practices
 - biosecurity
- national and international charters for cultural and heritage sites, including:
 - Australian Natural Heritage Charter
 - Burra Charter
 - interpretation of charters.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated for sites and applications stated in the Performance Evidence and in an environment that accurately represents workplace conditions
- specifications:
 - workplace policies, procedures, processes for implementing management plans
 - natural and cultural resource management plans for a specified region
 - legislation, codes of practice, and heritage and cultural site charters
- relationships:
 - work team.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
