Install tree protection devices

Release: 1

Assessment Requirements for AHCLSC210 Install tree protection devices

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has installed tree protection devices on at least two occasions and has:

- read and interpreted site and tree protection plans
- selected and operated tools and equipment for:
 - protecting trees
 - constructing and assembling tree protection devices
- applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE)
- measured materials used in constructing and assembling tree protection devices
- assembled and built protection devices
- cleaned up materials and maintained worksite
- demonstrated use of tools and equipment for installing tree protection devices
- reported tree protection device installation operations and unserviceable tools and equipment.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of installing tree protection devices, including:
 - how to care for and maintain trees during protection operations
 - techniques for assembling or constructing tree protection devices
 - the application of tree protection devices suitable to the requirements of the tree species
 - the damage that can occur to trees during construction work

- techniques relating to the choice of tools and equipment for installing tree protection devices
- workplace requirements applicable to health and safety in the workplace for installing tree protection devices including appropriate use of PPE.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions applicable to installing tree protection devices
 - materials, tools and equipment applicable to installing tree protection devices
 - PPE applicable to tree protection device installation work
- specifications:
 - workplace requirements applicable to health and safety in the workplace and installing tree protection devices
 - site plan and tree protection plan
- relationships:
 - supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
