Assessment Requirements for AHCLSC316 Implement a paving project

Release: 1

Assessment Requirements for AHCLSC316 Implement a paving project

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has implemented a paving project of at least ten square metres on solid and flexible bases using straight and curved edges, individually or as part of a team on at least one occasion and has:

- interpreted site plans and specifications
- applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE)
- selected, used and maintained tools, equipment and machinery required for implementing a paving project
- measured and cut pavers to specified tolerances
- installed edge restraints and drainage if required
- set out and excavated area, and installed stone paving according to site plan
- installed base, bedding material, jointing sand or grout, and pavers according to site plans and specifications
- checked quality of work and cleaned up site
- cleaned up, stored and maintained tools, machinery and equipment
- reported unserviceable tools, equipment and machinery.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of paving, including:
 - landscape paving materials
 - methods and practices for maintaining and repairing paved areas
 - methods of work schedule programming
 - set-out techniques

- paving patterns and techniques, including formal and random
- techniques for laying rigid and flexible paving
- techniques for laying stone paving
- the range and use of required materials, equipment and machinery
- workplace requirements applicable to health and safety in the workplace for implementing a paving project, including appropriate use of PPE.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - workplace procedures applicable to implementing a paving project
 - materials, tools, equipment and machinery applicable to implementing a paving project
 - PPE applicable to implementing a paving project
- specifications:
 - workplace requirements applicable to health and safety in the workplace for implementing a paving project
 - site plans, design drawings and specifications applicable to implementing a paving project
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
