Assessment Requirements for AHCLSK216 Clean and maintain livestock pens

Release: 1

Assessment Requirements for AHCLSK216 Clean and maintain livestock pens

Modification History

Release Number	TP Version	Comments
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify work health and safety hazards, follow safe work practices and use personal protective equipment appropriately
- make appropriate preparations for cleaning livestock pens
- clean and maintain pens
- complete cleaning and maintenance operation
- follow relevant environmental and biosecurity practices

Knowledge Evidence

The candidate must demonstrate knowledge of:

- requirements and methods of cleaning livestock pens
- environmental and biosecurity impacts of pen cleaning operation and measures to mitigate these impacts
- types and use of tools, equipment and machinery for pen cleaning operation and the maintenance, servicing and storage of such tools, equipment and machinery
- environmental and biosecurity impacts and methods of disposal of effluent, bio-waste and waste generated by the cleaning operation
- cleaning and maintenance of feeding and watering troughs or similar equipment
- types of documentation and records that need to be completed after the cleaning operations
- relevant work health and safety, biosecurity and environmental management policies

Assessment Conditions

Competency is to be assessed in the workplace and/or simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
