Assessment Requirements for AHCLSK230 Clean out production sheds

Release: 1

Assessment Requirements for AHCLSK230 Clean out production sheds

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has cleaned out production sheds on at least two occasions, and has:

- followed relevant workplace health and safety and environment and biosecurity legislation, regulations and workplace procedures
- made appropriate preparations for cleaning out shed
- cleaned shed and surrounds
- completed cleaning operation
- completed records.

Knowledge Evidence

An individual must be able to demonstrate knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for cleaning out production sheds, including appropriate use of personal protective equipment (PPE)
- environment and biosecurity legislation and regulations and workplace practices relevant to cleaning out production sheds
- principles and practices for cleaning out production sheds, including:
 - types of sheds and equipment found in sheds
 - methods to handle and transport equipment found in sheds
 - methods of sealing or covering shed equipment to prevent entry of water
 - methods for dry cleaning electrical equipment
 - environmental and biosecurity impacts of shed cleaning operation, and measures to mitigate these impacts
 - cleaning tools, equipment and machinery operation and storage

- environmental and biosecurity impacts and methods of disposal of effluent, bio-waste and waste generated by the cleaning operation
- cleaning, maintenance and servicing of filters, drinker lines, tanks and silos
- types, handling, use and disposal of cleaning agents, and work health and safety and environmental practices for these agents
- types of documentation and records that need to be completed after the cleaning operations.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to cleaning out production sheds
 - cleaning agents, machinery and equipment applicable to cleaning out production sheds
 - PPE applicable to cleaning out production sheds
- specifications:
 - workplace requirements applicable to health and safety in the workplace for cleaning out production sheds
 - environment and biosecurity legislation and regulations and workplace practices applicable to cleaning out production sheds
- relationships:
 - supervisor
- time frames:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
