Assessment Requirements for AHCLSK350 Identify and draft livestock

Release: 1

Assessment Requirements for AHCLSK350 Identify and draft livestock

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has identified and drafted livestock on at least two occasions, and has:

- applied relevant workplace health and safety and environment and biosecurity legislation, regulations and workplace procedures
- applied relevant animal welfare practices
- recognised and reported workplace health and safety hazards and used safe work practices
- handled and drafted livestock using good stock handling techniques
- identified criteria for animal selection
- controlled and sorted livestock
- selected animals according to selection criteria
- safely and humanely applied identification devices
- appraised and graded animals
- maintained records and documentation.

Knowledge Evidence

An individual must be able to demonstrate knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for identifying and drafting livestock, including appropriate use of personal protective equipment (PPE)
- environment and biosecurity legislation and regulations and workplace practices relevant to identifying and drafting livestock
- principles and practices for identifying and drafting livestock, including:
 - good stock handling techniques and restraint methods
 - animal movement and drafting
 - animal welfare practices

- livestock behaviour relevant to drafting
- selection criteria for breeding stock
- livestock identification systems and devices
- workplace animal identification procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to identifying and drafting livestock
 - treatments, materials and equipment applicable to identifying and drafting livestock
 - PPE applicable to identifying and drafting livestock
 - livestock
- specifications:
 - workplace requirements applicable to health and safety in the workplace for identifying and drafting livestock
 - environment and biosecurity legislation and regulations and workplace practices applicable to identifying and drafting livestock
 - legislation, regulations, standards, guidelines and procedures for animal welfare applicable to identifying and drafting livestock
- relationships:
 - supervisor or management
- time frames:
 - according to job requirements.

Assessment of this unit must be conducted on live animals.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
