Assessment Requirements for AHCLSK361 Transport farm produce or bulk materials

Release: 1

Assessment Requirements for AHCLSK361 Transport farm produce or bulk materials

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has transported farm produce or bulk material on at least two occasions, and has:

- applied relevant workplace health and safety and environment and biosecurity legislation, regulations and workplace procedures
- applied National Heavy Vehicle Regulator (NHVR) chain of responsibility (CoR) requirements relevant to the transportation of farm produce where applicable
- recognised and reported workplace health and safety hazards and used safe work practices
- manoeuvred transport machinery or truck in difficult sites and conditions
- driven truck safely using all available controls
- cleaned and stored vehicles and equipment
- identified operational faults
- completed time sheets and other maintenance records as required
- used communication methods to advise and anticipate conditions
- interpreted plans, reports, maps and schedules
- maintained and stored records, reports and log books
- planned, operated, loaded, unloaded and moved a truck with a range of loads over a full range of road conditions according to road traffic regulations
- conducted pre-start and post-operational checks
- maintained the quality and integrity of transported produce
- maintained truck and equipment according to maintenance manual and manufacturer specifications.
-

Knowledge Evidence

An individual must be able to demonstrate knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for transporting farm produce or bulk material
- environment and biosecurity legislation and regulations and workplace practices relevant to transporting farm produce or bulk material
- principles and practices for transporting farm produce or bulk material, including:
 - manufacturer and work site requirements, including property conditions, and hazards on the property and on the open road
 - road traffic laws and licensing requirements
 - NHVR CoR responsibilities relevant to the transportation of farm produce
 - workplace procedures for use of vehicles and equipment
 - emergency procedures
 - site safety requirements
 - equipment safety requirements
 - operational, start-up, and shutdown procedures and checks
 - hauling and towing procedures
 - receipt and document requirements at both ends of the transport operation
 - truck and equipment maintenance manual and manufacturer specifications
 - differences in handling and operation with bagged and bulk loads
 - workplace documentation requirements and procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to transporting farm produce or bulk material
 - truck, equipment and resources applicable to transporting farm produce or bulk material
 - PPE applicable to transporting farm produce or bulk material
 - facilities for loading and unloading farm produce or bulk material
- specifications:
 - workplace requirements applicable to health and safety in the workplace for transporting farm produce or bulk material
 - environment and biosecurity legislation and regulations and workplace practices applicable to transporting farm produce or bulk material
 - truck and equipment maintenance manual and manufacturer specifications
 - road traffic laws and licensing requirements
 - NHVR CoR responsibilities relevant to the transportation of farm produce

- workplace procedures for use of vehicles and equipment
- time frames:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
