Assessment Requirements for AHCLSK362 Maintain and monitor feed stocks

Release: 1

Assessment Requirements for AHCLSK362 Maintain and monitor feed stocks

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has maintained and monitored feed stocks on at least two occasions, and has:

- applied relevant workplace health and safety legislation, regulations and workplace procedures
- recognised and reported workplace health and safety hazards and used safe work practices
- undertaken feed stocktake and updated inventory
- determined quantities of stockfeed required
- placed stockfeed orders with suppliers
- received feed into feed store
- prepared and maintained feed storage areas and containers
- disposed of spoiled feeds.

Knowledge Evidence

An individual must be able to demonstrate knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for maintaining and monitoring feed stocks
- principles and practices for maintaining and monitoring feed stocks, including:
 - stocktaking and inventory for stockfeed
 - workplace livestock feeding plans and determination of stockfeed quantities and qualities
 - procedures for ordering stockfeed
 - procedures for taking, checking and handling stockfeed during delivery
 - post-delivery handling and storage of stockfeed
 - quality parameters of stockfeed and feed ingredients

- documentation and record keeping requirements for stockfeed
- procedures for cleaning feed storage areas and containers
- pest management of feed storage areas and containers
- monitoring, maintenance and servicing of feed storage facilities
- feed disposal methods and management.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to maintaining and monitoring feed stocks
 - tools, equipment and materials applicable to maintaining and monitoring feed stocks
 - stockfeed
- specifications:
 - workplace requirements applicable to health and safety in the workplace for maintaining and monitoring feed stocks
- relationships:
 - supplier and supervisor
- time frames:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
