Assessment Requirements for AHCLSK373 Carry out post-shearing procedures

Release: 1

Assessment Requirements for AHCLSK373 Carry out post-shearing procedures

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has carried out post-shearing procedures on at least one occasion, and has:

- applied relevant work health and safety and environment and biosecurity legislation, regulations and workplace procedures
- applied relevant animal welfare practices
- identified work health and safety hazards and used safe work practices
- recorded and reported relevant post-shearing information.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for carrying out post-shearing procedures
- environment, work health and safety (WHS) and biosecurity legislation and regulations and workplace practices relevant to carrying out post-shearing procedures
- impacts of wet, dry, cold and hot weather conditions on shorn livestock
- physiological conditions brought on by stress post-shearing, and treatment of same
- types and constructs of livestock shelter
- livestock handling techniques in response to adverse weather
- condition scoring
- appropriate types of feed for stressed livestock
- animal welfare practices and requirements applicable to post-shearing procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - equipment and materials applicable to post-shearing procedures
 - animals for shearing
- relationships:
 - shearing and wool harvesting staff.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
