Release: 1

Assessment Requirements for AHCLSK420 Provide advice on livestock products

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has provided advice on livestock products and related products on at least three occasions, and has:

- engaged with and advised customer on the range of livestock products available for the customer's purpose, application and environment
- complied with relevant legislative requirements in sales environments, including fair trading, trade practices and sale of goods legislation and public liability
- represented the workplace in a professional manner when dealing with customers
- applied workplace procedures for providing advice on livestock products and related products
- complied with animal welfare legislation and relevant components of state or territory Acts relating to livestock products
- advised customers on risks to worker safety or animal welfare from use of the product
- applied workplace health and safety, sustainability and biosecurity procedures for the safe handling of livestock products.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- livestock product requirements of local or specific customers
- legislative requirements in sales environments, including fair trading, trade practices and sale of goods legislation and public liability
- livestock products, including:
 - industry equipment
 - animal handling systems
 - stock feeds

- animal health products
- workplace procedures for providing advice on livestock products and related products
- animal welfare legislation and relevant components of state or territory Acts relating to livestock products
- workplace health and safety, sustainability and biosecurity procedures for the safe handling of livestock products.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - livestock products, including industry equipment, animal handling systems and stock feeds
- specifications:
 - legislative requirements relevant to sales environments, including fair trading, trade practices and sale of goods legislation and public liability
 - workplace procedures relevant to providing advice on livestock products and related products
 - components of state or territory Acts relevant to livestock products
 - animal welfare legislation and relevant components of state or territory Acts relating to livestock products
 - workplace health and safety, sustainability and biosecurity procedures for the safe handling of livestock products
- relationships:
 - customers.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
