Release: 1

Assessment Requirements for AHCLSK426 Oversee animal marking operations

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has overseen animal marking operations on at least one occasion, and has:

- planned, costed and scheduled resource requirements
- prepared and implemented a work plan for marking
- prioritised and scheduled marking operations
- determined and allocated staff roles and responsibilities
- monitored the health and wellbeing of animals during and after marking
- managed staff and operations and established and monitored performance targets
- documented and prepared plans and reports for staff and management
- implemented relevant workplace health and safety legislation, regulations and workplace procedures
- implemented and monitored relevant animal welfare policies and practices for overseeing animal marking operations.

Knowledge Evidence

An individual must be able to demonstrate knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for overseeing animal marking operations
- principles and practices for overseeing animal marking operations, including:
 - management processes and procedures
 - cost analysis techniques
 - procedures for planning and developing marking plans
 - marking and production plans

- codes of practice with regard to animal marking and animal health and welfare requirements
- use of veterinary medicines and their administration
- animal marking methods and procedures
- animal welfare requirements relevant to animal marking operations
- animal behaviour and nutritional requirements.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - work instructions and workplace procedures applicable to overseeing animal marking operations
 - equipment, materials and health treatments applicable to overseeing animal marking operations
 - livestock
- specifications:
 - workplace requirements applicable to health and safety in the workplace for overseeing animal marking operations
 - legislation, regulations, standards, guidelines and procedures for animal welfare applicable to overseeing animal marking operations
- relationships:
 - staff
- time frames:
 - according to job requirements.

Assessment of this unit must be conducted on live animals.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
