Assessment Requirements for AHCMD401 Apply security measures for medicinal cannabis

Release: 1

Assessment Requirements for AHCMDC401 Apply security measures for medicinal cannabis

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has applied security control measures for a medicinal cannabis site on at least one occasion, including:

- identified information from organisation and government on:
 - security threats to the organisation
 - control measures that can minimise the risk of diversion
- assessed risks and applied control measures in work routines for each of the following areas:
 - physical security of cannabis
 - reporting of loss or theft
 - disposal or destruction of cannabis
 - transportation of cannabis
- conducted an assessment on the maintenance of records and surveillance data
- monitored work of self and others for compliance with physical security measures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- regulations and compliance with meeting security standards required for the cultivation, production and manufacture of medicinal cannabis, including:
 - physical security of cannabis
 - reporting and dealing with loss or theft of cannabis
 - safe disposal or destruction of cannabis
 - safe and secure transportation of cannabis
- risk of diversion to illicit use

- processes for conducting a risk analysis
- record-keeping for traceability of cannabis and site monitoring and surveillance data
- processes for monitoring effectiveness of control measures
- process for reporting security concerns and issues.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a medicinal cannabis production site or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - workplace records
 - site monitoring and surveillance data
 - government information and guidelines on the security of medicinal cannabis
- specifications:
 - workplace documentation related to security arrangements of a medicinal cannabis site
 - workplace procedures relating to the security of medicinal cannabis
 - legislation and regulations related to the security of medicinal cannabis
- relationships:
 - staff.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
