| Release | TP Version | Comment         |
|---------|------------|-----------------|
| 1       | AHCv1.0    | Initial release |

## Application

This unit of competency describes the skills and knowledge required to recommend irrigation products and services to fulfil the needs of a client.

It applies to individuals who take responsibility for own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

## Pre-requisite Unit

Nil.

## Unit Sector

Merchandising and Sales (MER)

## Elements and Performance Criteria

| Element                                   | Performance criteria                                                                                                                                                                                                                                                         |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes. | Performance criteria describe the performance needed to demonstrate achievement of the element.                                                                                                                                                                              |
| 1. Research store product range           | 1.1 Accessing relevant sources of information to develop product knowledge<br>1.2 Identify products according to relevant product information<br>1.3 Operate store products, machinery and equipment safely<br>1.4 Demonstrate a broad knowledge of irrigation product range |
| 2. Recommend irrigation products          | 2.1 Identify client's needs<br>2.2 Provide details of product specifications and explain to clients to assist buying decisions                                                                                                                                               |

| Element                                              | Performance criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                      | 2.3 Explain features and benefits of products to clients to create a buying environment                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3.
