Application

This unit of competency describes the skills and knowledge required to carry out minor service of milking equipment.

This unit applies to technicians and dairy farm workers who service and repair milking machine components.

All work must be carried out to comply with workplace procedures, work health and safety, animal welfare and biosecurity legislation and codes, and sustainability practices.

This unit applies to individuals who work under broad direction and use discretion and judgement in the selection and use of available resources.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Milk Harvesting (MKH)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Identify faults in milking machines	1.1 Identify poor performance of milking equipment from observations at milking 1.2 Carry out minor machine adjustments to rectify poor performance characteristics 1.3 Complete fault finding and fault diagnosis with minimum

Element	Performance criteria
	disruption to milking routines
2. Identify external faults	2.1 Identify and isolate independent electrical appliances that impact on the enterprise dairy operation 2.2 Observe animal behaviour during milking and record abnormalities 2.3 Identify faults in earthing systems and grids and refer to qualified electrician when necessary
3. Carry out operational service and maintenance of milking machines	3.1. Clean and adjust machine components and repair or replace defective parts or components 3.2 Identify faults in electric motors and refer to qualified electrician when necessary 3.3 Complete programmed maintenance routines to replace consumables and maintain lubrication 3.4 Eliminate or risk control work health and safety hazards identified in safety audits 3.5 Complete adjustments to restore optimum performance of milking equipment

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCMKH301A Carry out minor service of milking equipment.
