Assessment Requirements for AHCMOM206 Conduct grader operations

Release: 2

Assessment Requirements for AHCMOM206 Conduct grader operations

Modification History

Release	Comments
Release 2	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 3.0.
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit. There must be evidence that the individual has prepared for, carried out and shut down grader operations at least once and has demonstrated the following:

- identified hazards and implemented safe operating procedures for grader operations
- carried out pre-operational checks required for safe grader operation
- driven and operated a grader safely and modified operating technique to meet changing work conditions
- carried out grader shut down procedures including securing and safe storage of grader
- minimised environmental impacts associated with grader operation
- followed workplace health and safety procedures while undertaking pre-operational checks, operational and shut down procedures for the grader
- followed industry and workplace biosecurity procedures
- completed required documentation for grader use.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- hazards and risks associated with grader operations
- grader and site safety requirements
- grader components, controls, features, technical capabilities and limitations
- grader operation and maintenance manual
- duty of care to self, others and the environment when operating a grader
- relevant legislation with regard to grader operation and licensing requirements
- environmental impacts relevant to the operation of graders

- workplace procedures applicable to health and safety in the workplace requirements to operate a grader safely
- industry and workplace biosecurity procedures.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
 - individual must not be under the influence of alcohol or drugs
 - individual must not be taking any medication (prescribed or otherwise) that may impair judgement
 - individual must not be in a fatigued state when operating the machinery
- resources, equipment and materials:
 - graders
 - safety equipment and personal protective equipment applicable to the task being undertaken
- specifications:
 - grader operation and maintenance manuals
 - industry and workplace biosecurity procedures applicable to grader operation
 - legislation relevant to grader operation and licensing requirements
- timeframes:
 - according to the job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
