Assessment Requirements for AHCNSY102 Support nursery work

Release: 1

Assessment Requirements for AHCNSY102 Support nursery work

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has supported nursery work on at least two occasions, and has:

- prepared materials, tools and equipment for nursery work
- applied safe work practices
- undertaken nursery work as directed
- stored materials as directed
- cleaned up on completion of work.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- procedures for preparing for nursery work and cleaning up on project completion
- safe work practices used in nursery work
- principles and practices of nursery work
- basic nursery plant maintenance activities
- basic stock control procedures
- nursery hygiene and quality control.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:

- work instructions and workplace procedures applicable to supporting nursery work
- nursery maintenance materials, tools and equipment
- personal protective equipment applicable to supporting nursery work
- relationships:
 - supervisor, staff and customers
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
