Assessment Requirements for AHCNSY204 Maintain indoor plants

Release: 1

Assessment Requirements for AHCNSY204 Maintain indoor plants

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- Prepare for indoor plant maintenance activities according to instructions
- inspect plant quality
- measure quantities and calculate application rates
- operate, adjust and maintain watering system
- use a light meter
- monitor and maintain health of indoor plants
- maintain indoor plant environment
- record workplace information

Knowledge Evidence

The candidate must demonstrate knowledge of:

- the principles and practices of indoor plant maintenance
 - acclimatisation techniques for indoor plants
 - botany and physiology of indoor plants
 - common problems that may occur with indoor plants and their treatment
 - growth requirements of indoor plants
 - identification and characteristics of common indoor plants and their culture
 - light and moisture tolerance and intolerance for common indoor plant species
 - methods of disposing of waste to minimise damage to the environment
 - operations and maintenance of a range of irrigation and subirrigation systems used for watering indoor plants and displays

Assessment Conditions

Assessors must satisfy current standards for RTOs.
