Assessment Requirements for AHCNSY208 Maintain indoor plants

Release: 1

Assessment Requirements for AHCNSY208 Maintain indoor plants

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has maintained indoor plants on at least three occasions, and has:

- applied workplace health and safety requirements
- prepared for indoor plant maintenance activities according to workplace instructions and procedures
- selected, cleaned, used and maintained plant care tools and equipment
- monitored indoor plant environment
- inspected plant quality
- monitored and maintained health of indoor plants
- recognised common problems in indoor plants
- applied water as directed
- removed and disposed of waste material
- recorded and reported indoor plant maintenance operations and unserviceable tools and equipment.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable for indoor plant maintenance including health and safety requirements
- principles and practices of indoor plant maintenance, including:
 - acclimatisation techniques for indoor plants
 - risks associated with indoor plant maintenance in public spaces
 - common problems that may occur with indoor plants, and their treatment
 - growth requirements of indoor plants

- identification and characteristics of common indoor plants, and their culture
- methods of disposing of waste to minimise damage to the environment
- methods used for watering indoor plants and displays.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - indoor plants
 - indoor plant maintenance tools and equipment
 - personal protective equipment applicable to indoor plant maintenance
- specifications:
 - workplace requirements applicable to health and safety in the workplace and indoor plant maintenance
 - work instructions and workplace procedures applicable to indoor plant maintenance
- relationships:
 - supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
