Assessment Requirements for AHCNSY309 Receive and dispatch nursery products

Release: 1

Assessment Requirements for AHCNSY309 Receive and dispatch nursery products

Modification History

Release	Comments
Release1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has received and dispatched nursery products on at least three occasions, and has:

- applied workplace health and safety requirements, including use of PPE
- interpreted order forms
- met customer service requirements
- selected product for order requirements
- evaluated product quality
- monitored product dispatch, delivery and receipt processes.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for receiving and dispatching nursery products
- principles and practices of receiving and dispatching nursery products, including:
 - workplace hygiene practices and procedures
 - common sources of cross-contamination from transport vehicles
 - environmental controls necessary for transporting plants
 - quality standards for the packing, packaging and labelling of products
 - quarantine policies and relevant biosecurity legislation
 - biosecurity practices
 - stock control procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - nursery plants and products
 - nursery plant and product receipt and dispatch materials and equipment
 - personal protective equipment applicable to nursery plant and product receipt and dispatch
- specifications:
 - workplace requirements applicable to health and safety in the workplace for receiving and dispatching nursery products
 - work instructions and workplace procedures for receiving and dispatching nursery products
- relationships:
 - customers
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
