Assessment Requirements for AHCNSY310 Install and maintain plant displays

Release: 1

Assessment Requirements for AHCNSY310 Install and maintain plant displays

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has installed and maintained plant displays on at least three occasions, and has:

- consulted with clients to determine requirements
- assessed site conditions, requirements and constraints impacting plant display
- determined spatial measurements of a plant display
- selected plants that meet the requirements of the display and site
- identified and scheduled materials and equipment to install a plant display
- documented display plan, including:
 - plant selection
 - plant installation
 - plant rotation and maintenance requirements
- applied workplace health and safety requirements, including the use of appropriate PPE
- maintained plants to meet their water, light and fertiliser requirements
- detected and controlled pests and diseases.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types of plant displays, considering:
 - timeframe
 - location
- ranges of plant displays, including:
 - exhibition
 - visual merchandising

- marketing
- commercial leasing and hiring activities
- the principles and practices of installing and maintaining plant displays, including:
 - acclimatisation techniques for plants
 - characteristics and attributes of a range of plants used for plant display
 - commonly occurring problems with plant display
 - light and moisture tolerance/intolerance for common plant species
 - options for remedial action
 - photosynthesis, respiration, nutrient uptake and growth rate for plants
 - plant growth requirements
- workplace requirements applicable to health and safety in the workplace for installing and maintaining plant displays.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - plants
 - plant display site
 - personal protective equipment applicable to installing and maintaining plant displays
- specifications:
 - workplace requirements applicable to health and safety in the workplace for installing and maintaining plant displays
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
