Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify businesses guidelines and principles for social, financial and environmental sustainability
- identify and interpret environmental regulations, sustainable organic farming requirements, farm plan and current best practice guidelines and principles
- implement strategies to integrate sustainability principles and practices into the farm system and identify continuous improvement opportunities
- monitor farm business sustainability initiatives for effectiveness and compliance
- adopt and document continuous improvement initiatives
- encourage staff and farm business stakeholders to embrace sustainability practices
- apply enterprise work health and safety policies and guidelines
- implement enterprise environmental sustainability practices

Knowledge Evidence

The candidate must demonstrate knowledge of:

- best practice guidelines
- principles and processes relevant to sustainable organic farming
- compliance requirements for all relevant environmental/sustainability legislation, regulations and codes of practice including resource hazards/risks associated with work area, job specifications and procedures
- sustainability issues including environmental and social issues that relate to an organic farm
- external benchmarks used within an organic farming enterprise, including approaches to improving techniques used and expected outcomes

Assessment Conditions

Competency is to be assessed in the workplace and/or a simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
