Assessment Requirements for AHCPER205 Prepare and store permaculture products

Release: 1

Assessment Requirements for AHCPER205 Prepare and store permaculture products

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- handle products and their containers safely
- maintain containers in good condition
- maintain product storage areas and containers
- grade and label products
- pack and store products
- check stored products for damage, repacking or other treatments

Knowledge Evidence

The candidate must demonstrate knowledge of:

- permaculture principles and practices in relation to product preparation and storage, such as:
 - the range of products produced by permaculture enterprises and their yields
 - parts of products stored
 - preserving the harvest
- correct handling, preparation and treatment techniques for a range of products, such as:
 - observation and identification of harvest readiness
 - storage methods for different products
 - pests and diseases likely to affect storage
 - hygiene issues in the handling and storage of permaculture products

Assessment Conditions

Assessors must satisfy current standards for RTOs. Assessors must also hold a nationally accredited Certificate III (or higher) in Permaculture to assess this unit of competency and/or have completed a Permaculture Design Course (PDC) and/or have completed the Permaculture Demonstrator Skill Set.
