AHCPGD206 Conduct visual inspection of park facilities

Release: 1

AHCPGD206 Conduct visual inspection of park facilities

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to carry out routine visual inspections of park and recreational facilities to identify visible hazards and existing and potential risks.

It applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They undertake defined activities and work in a structured context.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Parks and gardens (PGD)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare for visual inspection	1.1 Interpret site plans and inspection checklists and clarify requirements with the supervisor 1.2 Clarify the specific terminology used in checklists 1.3 Identify park site to be inspected and locate on the site plan 1.4 Identify park facilities, equipment and services on site from checklist descriptions and site plan
2. Undertake visual inspection	2.1 Inspect park facilities, equipment and services and compare to enterprise presentation standards and workplace health and safety

Element	Performance criteria
	requirements 2.2 Identify work health and safety hazards and adverse environmental impacts and record on the appropriate form 2.3 Report situations requiring urgent action to supervisor
3. Submit report	3.1 Confirm that inspection activity reports and checklists are concise and accurate and comply with enterprise standards 3.2 Forward checklist and report promptly to supervisor

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCPGD206A Conduct visual inspection of park facilities.

Assessment Requirements for AHCPGD206 Conduct visual inspection of park facilities

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting.

The candidate must provide evidence that they can:

- prepare for visual inspection of park facility
- carry out a visual inspection of park facility
- determine the extent of problems
- evaluate serious issues that may be present
- identify environmental risks and impacts from site facilities
- rate the condition of facilities
- rate the hazards and associated environmental implications of malfunctioning facilities, equipment and services
- report urgent situations
- complete and submit inspection activity checklist and report

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices of park facility visual inspection
 - cleaning, servicing and hygiene requirements of public conveniences
 - hazards investigation and risk assessment
 - effective maintenance and repair work particularly in relation to end use of the facilities and equipment, and the safety of users
 - recognition of the range of park facilities, equipment and services relevant to the enterprise
 - reporting requirements, procedures and materials for use in park inspection
 - terminology used to describe different components of the range of facilities, equipment and services relevant to the enterprise
 - the effect of adverse outdoor climatic conditions, such as rain, hail, wind, or very high ultraviolet radiation, on park facilities inspection activities

- hazards that are likely to be encountered by visitors using the park facilities and equipment
- the practical application of site plans, checklist descriptions and presentation standards to locate and effectively assess facilities and equipment against the required parameters
- the relevant Australian Standards

Assessment Conditions

Assessors must satisfy current standards for RTOs.
