Assessment Requirements for AHCPGD212 Conduct visual inspection of park facilities

Release: 1

Assessment Requirements for AHCPGD212 Conduct visual inspection of park facilities

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has conducted a visual inspection of park facilities on at least two occasions and has:

- prepared for and conducted visual inspection of park facility
- applied workplace health and safety requirements
- applied workplace standards of presentation
- compared the condition of facilities to the required workplace standard
- determined the extent of problems
- recorded and reported hazards and associated environmental implications of malfunctioning facilities, equipment and services
- reported serious issues that may be present
- completed and submitted inspection activity checklist, report and photographs.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of park facility visual inspection, including:
 - cleaning, servicing and hygiene requirements of public conveniences
 - hazard identification and reporting
 - the range of park facilities, equipment and services
 - park inspection reporting requirements, procedures and materials
 - terminology used to describe different components of the range of facilities, equipment and services relevant to the workplace
 - issues likely to be encountered by visitors using the park facilities and equipment

- the practical application of site plans, checklist descriptions and workplace standards of presentation to locate and effectively assess facilities and equipment against the required parameters
- workplace standards of presentation and Australian Standards applicable to park facilities
- workplace requirements applicable to health and safety in the workplace for inspection of park facilities.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - site plans, checklists, forms and activity reports applicable to conducting visual inspection of park facilities
 - photographic device
- specifications:
 - workplace requirements applicable to health and safety in the workplace and inspection of park facilities
 - workplace standards of presentation and Australian Standards applicable to park facilities
- relationships:
 - supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
