Assessment Requirements for AHCPGD310 Implement a landscape maintenance program

Release: 1

Assessment Requirements for AHCPGD310 Implement a landscape maintenance program

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has implemented a landscape maintenance program on at least one occasion and has:

- applied workplace health and safety requirements
- completed general site inspection
- determined maintenance requirements
- implemented maintenance operations
- performed general plant maintenance, including:
 - weeding
 - fertilising
 - watering
 - pruning
 - pest and disease control
- repaired and renovated landscape structures and features, including:
 - tidying up
 - blowing
 - sweeping
 - cleaning
- identified any items requiring further action or cannot be completed within existing resources
- evaluated and recorded results of maintenance works.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of landscape maintenance, including:
 - actions permitted in the event of variations to maintenance programs
 - common maintenance tasks for landscapes
 - characteristics and optimal growing conditions of a range of plants
 - common problems and remedial actions of a range of plants
- workplace requirements applicable to health and safety in the workplace for a landscape maintenance program.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - workplace procedures applicable to implementing a landscape maintenance program
 - site inspection checklist
 - soft and hard landscape
 - materials, tools and equipment applicable to implementing a landscape maintenance program
- specifications:
 - workplace requirements applicable to health and safety in the workplace for implementing a landscape maintenance program
 - landscape maintenance program and standards
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
