AHCPGD311 Conduct operational inspection of park facilities

Release: 1

AHCPGD311 Conduct operational inspection of park facilities

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Application

This unit of competency describes the skills and knowledge required to conduct operational inspections of park or recreational facilities to identify hazards, existing and potential risks and non-conformities with Australian Standards and workplace health and safety requirements.

The unit applies to individuals who conduct operational inspection of park facilities under broad direction, and take responsibility for their own work and for the quality of the work of others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Parks and Gardens (PGD)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for operational inspection	1.1 Determine from operational request, specific facilities and equipment to be inspected and purpose of inspection 1.2 Identify potential hazards and risks of conducting inspection, and implement safe working practices to address risks 1.3 Select, tools and equipment required for testing and inspection and check for safe operation

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Prepare checklists and reporting formats applicable to inspection purpose 1.5 Identify the different types of facilities from checklist descriptions 1.6 Clarify specific terminology used in checklists with supervisor 1.7 Select, fit, use and maintain personal protective equipment (PPE) applicable to task
2. Undertake operational inspection	2.1 Identify and record non-conformity with Australian standards and workplace health and safety procedures 2.2 Identify and record damaged or unserviceable infrastructure 2.3 Identify and record site hazards and indications or signs of hidden faults 2.4 Maintain accurate and concise checklist entries and photographic records according to workplace procedures
3. Finalise the park inspection	3.1 Report and record areas or situations requiring urgent action or closure of facilities to supervisor 3.2 Secure or isolate areas requiring urgent action 3.3 Record recommendations to rectify non-conformities as required 3.4 Complete inspection report, including photographs where required and submit to client or supervisor

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Interpret textual and drawn information to identify relevant and key information about park facilities, and inspection and workplace standards requirements
Oral communication	Initiate discussions with supervisor using clear language to report situations requiring urgent action or closure of facilities

Assessment Requirements for AHCPGD311 Conduct operational inspection of park facilities

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has conducted an operational inspection of two different park facilities and has:

- determined the purpose of the inspection and the facilities and equipment to be inspected and tested
- applied workplace health and safety requirements, including fitted and used personal protective equipment (PPE)
- selected, used and maintained tools and equipment required for operational testing and inspection of park facilities
- clarified specific terminology used in checklists with the supervisor
- compared actual measurements of inspected components with Australian standards, workplace health and safety requirements, and workplace specifications
- evaluated the condition of facilities
- determined and reported urgent and serious situations
- completed and submitted proforma inspection report, photographs and workplace procedure documents.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of park facility operational inspection, including:
 - different areas of non-conformity that may be identified in relevant Australian standards and health and safety in the workplace requirements
 - identification, assessment and control of hazards
 - inspection procedures and techniques, and workplace reporting requirements for maintenance, repair and replacement recommendations
 - principles and practices of park facility operational inspections

- terminology used to describe different components of park or recreational facilities and equipment
- operational expectations and workplace requirements for the presentation and working order priorities of a range of park or recreational facilities and equipment
- the range, use and safety parameters of park or recreational facilities and equipment, their material construction and maintenance requirements
- legislative requirements and codes of practice applicable to public use of park facilities
- workplace requirements applicable to health and safety in the workplace for conducting an operational inspection of park facilities, including appropriate use of PPE.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - workplace procedures applicable to conducting an operational inspection of park facilities
 - materials, tools and equipment applicable to conducting an operational inspection of park facilities
 - checklists, forms and inspection report proformas applicable to conducting an operational inspection of park facilities
 - photographic device
 - PPE applicable to conducting an operational inspection of park facilities
- specifications:
 - workplace requirements applicable to health and safety in the workplace for conducting an operational inspection of park facilities
 - workplace requirements and Australian standards applicable to park facilities and conducting an operational inspection of park facilities
 - legislation and codes of practice applicable to public use of park facilities and conducting an operational inspection of park facilities
- relationships:
 - client or supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
