Assessment Requirements for AHCPGD403 Design plant displays

Release: 1

Assessment Requirements for AHCPGD403 Design plant displays

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has designed two different plant displays and has:

- consulted with clients
- evaluated sites or locations to determine the effect of aesthetic, environmental and physical attributes on nature of display
- applied relevant workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures
- determined timelines and budget constraints
- researched and analysed information about plant and materials specifications and cultural requirements
- developed concept plan, design plan and specifications.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of plant display design, including:
 - characteristics of a range of plants used in plant displays
 - growth and maintenance requirements of plants in natural and artificial environments
 - horticultural conventions for design plans
 - plant selection
 - principles of design
 - processes and techniques for preparing, costing and documenting plans for plant displays
 - client consultation and negotiation techniques
 - plants commonly used in plant displays
- workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to designing plant displays.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - industry publications, internet and in house sources of information relevant to designing plant displays
 - plant display
- specifications:
 - workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to designing plant displays
- relationships:
 - clients
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
