Assessment Requirements for AHCPGD404 Plan a plant establishment program

Release: 1

Assessment Requirements for AHCPGD404 Plan a plant establishment program

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has planned a plant establishment program on at least one occasion and has:

- consulted with clients
- researched plant species and cultivars and local by-laws and restrictions
- complied with local by-laws and restrictions
- applied relevant workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures
- developed a plant establishment program concept plan
- calculated the cost and spatial and logistical requirements of components of the plant establishment program
- documented plant establishment program, site plan, work procedures, schedules, and specifications.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- principles and practices of plant establishment program planning, including:
 - identification and establishment techniques of specific plant species and cultivars
 - the advantages and disadvantages of a range of plant establishment procedures
 - maintenance requirements and practices for specific plant species and cultivars, prior to and after initial establishment
 - processes and techniques for preparing, costing and documenting plans for and scheduling plant establishment activities
 - processes and techniques for scheduling plant establishment activities
- local by-laws and restrictions relevant to planning a plant establishment program

- workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to planning a plant establishment program.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
 - industry publications, internet and in house sources of information relevant to planning a plant establishment program
- specifications:
 - workplace health and safety and environmental and biosecurity legislation, regulations and workplace procedures relevant to planning a plant establishment program
 - local by-laws and restrictions relevant to planning a plant establishment program
- relationships:
 - clients
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
