Release: 1

AHCPGD504 Develop and implement a streetscape management plan

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Application

This unit of competency describes the skills and knowledge required to develop and implement a streetscape management plan.

It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Parks and gardens (PGD)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Define the need for a streetscape management plan	1.1 Identify the management plan objectives for the streetscape 1.2 Consult with client and identify brief requirements 1.3 Identify a planning team including specialists and consultants
2. Undertake preliminary planning activities	2.1 Identify major stakeholders 2.2 Determine the availability of specialists to assist in management

Element	Performance criteria
	planning work and prepare contracts where required 2.3 Establish timelines for development of the management plan and reporting arrangements to client 2.4 Identify required resources for developing management strategies
3. Prepare a site description	3.1 Identify and map landscape values of the area 3.2 Identify and map physical features and characteristics of the streetscape 3.3 Research land , including current, cultural and historical modifications, and determine and record their effects on the streetscape 3.4 Assess and document physical condition of site 3.5 Document the biological characteristics of the site
4. Analyse site information and description	4.1 Evaluate information in terms of core principles and objectives 4.2 Produce documents, including plans, technical reports and maps 4.3 Determine priorities and key management issues 4.4 Identify and document opportunities and constraints to meeting planning objectives and goals 4.5 Make a presentation to clients and residents and incorporate feedback into planning documentation
5. Identify management strategies	5.1 Identify management strategies that address defined objectives 5.2 Design management strategies to alleviate existing impacts or to target management action 5.3 Cost management strategies and compare to existing budgets and available resources 5.4 Plan implementation of work to prioritise outcomes and management resource allocation 5.5 Consult with clients and residents and incorporate feedback into documentation
6. Prepare the management plan	6.1 Develop a draft management plan that includes site information and management strategies 6.2 Consult with stakeholders and clients and incorporate agreed changes into the final plan 6.3 Present final plan to client
7. Implement the management plan	7.1 Implement the management plan within predetermined budget, and according to the schedule and strategies set out in the plan 7.2 Modify the implementation strategy to address on-going feedback from clients and residents 7.3 Provide reports to clients and residents on the progress of implementation works

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to AHCPGD504A Develop and implement a streetscape management plan.

Assessment Requirements for AHCPGD504 Develop and implement a streetscape management plan

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting.

The candidate must provide evidence that they can:

- define the need for a management plan
- undertake preliminary planning activities
- analyse site information and description
- identify management strategies
- prepare the management plan
- prepare a site description
- implement the management plan

Knowledge Evidence

The candidate must explain:

- principles and practices for streetscape management planning
 - basic civil design
 - community consultation processes
 - horticultural, landscape and arboricultural practices used in streetscape management
 - landscape assessment, survey and analysis techniques
 - management planning principles and issues
 - soil, plant and water testing processes and procedures, interpretation and application of results

Assessment Conditions

Assessors must satisfy current standards for RTOs.
