Assessment Requirements for AHCPHT208 Water mushroom crops

Release: 1

Assessment Requirements for AHCPHT208 Water mushroom crops

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- prepare to use watering equipment
- deliver water to the mushroom crop at required rate and pressure
- estimate flow rate of water by the range of watering equipment in use
- measure correct doses of additives for water
- record water use

Knowledge Evidence

The candidate must demonstrate knowledge of:

- principles and practices for watering mushroom crops
 - effect on mushrooms of under-watering, overwatering, insufficient evaporation, late watering and moisture imbalance
 - effects of water on casing structure, mycelium, yields and quality
 - factors affecting effective operation of watering tree or other equipment used
 - how panning occurs
 - 'light', 'medium' and 'heavy' water and when each type is used
 - safe and effective use of fungicides and other water additives

Assessment Conditions

Assessors must satisfy current standards for RTOs.
