AHCPHT210 Assist with protected cropping water sampling and testing

Release: 1

AHC PHT210 Assist with protected cropping water sampling and testing

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 4.0.

Application

This unit of competency describes the skills and knowledge required to assist with protected cropping water sampling and testing.

The unit applies to individuals who assist with protected cropping water sampling and testing under general supervision with limited autonomy or accountability.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Production horticulture (PHT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Collect water sample	1.1 Confirm with supervisor crop water to be sampled 1.2 Identify and select water sample tools and materials 1.3 Identify environmental and biosecurity implications associated with sampling and testing crop water and minimise impact 1.4 Recognise workplace hazards and report safety concerns 1.5 Select, fit, use and maintain personal protective equipment applicable to the task and workplace safety requirements

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.6 Take samples as instructed 1.7 Assist with labelling and recording samples as required
2. Perform basic tests on water sample	2.1 Identify content features of the water sample 2.2 Assist with testing and inspecting physical properties of water sample 2.3 Assist with testing chemical properties of water sample 2.4 Relate water test results to suitability of water for growing crops 2.5 Record water test results according to workplace procedures
3. Complete sampling and testing activities	3.1 Dispose of waste material according to workplace procedures 3.2 Clean and return tools and material to required location 3.3 Report water test results to supervisor

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Interpret textual information from a range of sources to identify relevant and key information about workplace operations and products
Writing	Use clear language, accurate industry terminology and logical structure to prepare water test results
Oral Communication	Use clear language to confirm crop to be sampled and report water test results and report tool and material unserviceabilities
Navigate the world of work	Recognise and follow workplace requirements, including safety requirements, associated with own role and area of responsibility
Get the work done	Take responsibility for routine decisions about water sampling and testing and reflect on outcomes to identify effectiveness of decisions

Unit Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
AHCPHT210 Assist with protected cropping water sampling and testing	Not applicable	New unit	No equivalent unit
