Assessment Requirements for AHCPHT213 Perform plant blocking on

Release: 1

Assessment Requirements for AHCPHT213 Perform plant blocking on

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 4.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has performed plant blocking on, on at least three occasions and has:

- selected, positioned, used and maintained plant blocking on tools, equipment, substrate and materials
- minimised environmental impacts associated with plant blocking on
- followed industry and workplace biosecurity procedures
- applied workplace health and safety requirements
- flooded block on substrate, checked plant health and adjusted water flow
- recorded and reported plant blocking on activities and unserviceable tools and equipment
- removed and disposed of waste material.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types of blocking on substrate, including:
 - clay aggregate
 - coco coir
 - perlite
 - rockwool
 - vermiculite
- plant blocking on tools and equipment operating instructions
- purpose and procedures for plant blocking on
- environmental impacts associated with blocking on plants
- industry and workplace biosecurity procedures

- workplace requirements applicable to health and safety in the workplace for blocking on plants.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - plant blocking on tools, equipment, substrate and materials
 - personal protective equipment applicable to plant blocking on
- specifications:
 - plant blocking on equipment operating instructions
 - workplace requirements applicable to health and safety in the workplace and blocking on of plants
 - industry and workplace biosecurity procedures applicable to blocking on of plants
- relationships:
 - supervisor
- timeframes:
 - according to job requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
