Assessment Requirements for AHCPRK205 Care for health and welfare of outdoor pigs

Release: 1

Assessment Requirements for AHCPRK205 Care for health and welfare of outdoor pigs

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- check and assess pig health and welfare
- provide an optimal environment for pigs
- establish and maintain hygiene
- administer medication to pigs
- remove dead or non-viable pigs
- report and complete records
- follow work health and safety procedures
- follow biosecurity procedures
- follow animal welfare policies
- follow environmental policies

Knowledge Evidence

The candidate must demonstrate knowledge of:

- relevant regulatory requirements, codes of practice, industry standards and enterprise procedures for biosecurity and quarantine
- relevant regulatory requirements, codes of practice, industry standards and enterprise procedures for animal welfare of pigs
- signs of health, signs of ill health, and methods for assessing pig health and welfare
- techniques and methods for humane handling and restraint of pigs
- common diseases of pigs, treatment regimes, prevention and management strategies
- criteria for handling compromised pigs
- relevant documentation, records and reports that are required

- the types, functions and characteristics of housing, housing infrastructure and housing equipment for outdoor pigs, and the criteria and methods for determining that they are in working condition
- types, uses, handling, storage and routes of administration of commonly used vaccines, veterinary medicines and chemicals
- requirements, methods and procedures for removing and disposal of waste and debris
- procedures for conducting a post-mortem examination
- effects and impacts of individual pig health and welfare on herd health status and vice versa
- relevant work health and safety requirements and environmental practices

Assessment Conditions

Competency is to be assessed in the workplace or workplace and simulated environment that accurately reflects performance in a real workplace setting.

Assessors must satisfy current standards for RTOs.
