Assessment Requirements for AHCPRK303 Artificially inseminate pigs

Release: 1

Assessment Requirements for AHCPRK303 Artificially inseminate pigs

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- prepare for artificial insemination
- inseminate pigs and record data
- clean work area and equipment
- follow work health and safety policies
- follow biosecurity policies
- follow animal welfare policies
- follow environmental policies

Knowledge Evidence

The candidate must demonstrate knowledge of:

- resource and manpower requirements, biosecurity requirements, industry standards, codes of practice and procedures for artificial insemination of pigs
- relevant animal welfare practices for the conduct of artificial insemination in pigs
- procurement, transportation, handling, maintenance, storage and use of porcine semen for artificial insemination
- anatomy and physiology of reproductive organs and structures in pigs
- relevant documentation and records that are required
- relevant environmental and sustainability requirements, and procedures for disposal and management of wastes and debris
- requirements and procedures for cleaning and maintaining work areas
- types, uses, maintenance, servicing and storage of equipment
- methods and procedures for cleaning and disinfection of equipment used for artificial insemination

- procedures for handling, measurement and usage of cleaning chemicals, disinfectants and sanitisers
- work health and safety and biosecurity requirements and environmental practices

Assessment Conditions

Competency is to be assessed in the workplace OR workplace and simulated environment that accurately reflects performance in a real workplace setting.

Assessments must be conducted on live animals.

Assessors must satisfy current standards for RTOs.
