Assessment Requirements for AHCSDT403 Perform an Anguina test on annual ryegrass seed

Release: 1

Assessment Requirements for AHCSDT403 Perform an Anguina test on annual ryegrass seed

Modification History

Release	TP Version	Comment
1	AHCv1.0	Initial release

Performance Evidence

The candidate must be assessed on their ability to integrate and apply the performance requirements of this unit in a workplace setting. Performance must be demonstrated consistently over time and in a suitable range of contexts.

The candidate must provide evidence that they can:

- identify galls on ryegrass seed
- inspect seed samples using a diaphanoscope
- plan and delegate testing tasks
- use a microscope to detect nematode gall (*Anguina spp.*)

Knowledge Evidence

The candidate must demonstrate knowledge of:

- basic nematode identification
- enterprise standard operating procedures (SOPs)
- recording and reporting protocols
- relevant health, safety and environment requirements
- seed biology

Assessment Conditions

Assessors must satisfy current standards for RTOs.
