Assessment Requirements for AHCSDT413 Handle and store seed subject to quarantine regulations

Release: 1

Assessment Requirements for AHCSDT413 Handle and store seed subject to quarantine regulations

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has complied with state and federal regulations for handling and storing seed subject to quarantine and biosecurity regulations on at least one occasion, and has:

- handled, tested and stored seeds subject to quarantine
- maintained records and documentation of seed in compliance with state and federal quarantine and biosecurity regulations
- designed work procedures to prevent non-compliance
- reported non-compliance according to workplace and regulatory obligations.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- state and federal regulations for handling and storing seeds subject to quarantine
- biosecurity regulations governing the importation and transportation of seeds in Australia
- laboratory systems, records and reporting procedures for dealing with seed subject to quarantine and biosecurity regulations
- testing methods and equipment
- relevant work health, safety and environment requirements
- statutory and legal compliance requirements for seeds.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:

- skills must be demonstrated in quarantine compliant laboratory or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - seeds subject to quarantine restrictions
 - access to tools, equipment and materials subject to quarantine regulations
 - access to training and mentoring materials and equipment
- specifications:
 - use of workplace policies, procedures and processes
 - access to specific legislation, regulations and codes of practice for quarantine compliant laboratories
- relationships:
 - work team.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
