Assessment Requirements for AHCSHG215 Grind combs and cutters for machine shearing

Release: 1

Assessment Requirements for AHCSHG215 Grind combs and cutters for machine shearing

Modification History

Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Release 11.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- determined the need for sharpening combs and cutters on one occasion
- prepared the grinder and pendulum on one occasion
- grinded a minimum of five combs and five cutters for machine shearing to industry standards.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- types of combs and cutters
- terminology, techniques and procedures for grinding combs and cutters
- setting of, storage and caring for grinding papers
- tools and equipment used in grinding combs and cutters
- work health and safety (WHS) standards, codes of practice and biosecurity policies applying to the job role
- manufacturer specifications regarding the use of combs, cutters and grinders
- personal protective equipment (PPE), and when and how it should be used.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents workplace conditions

- resources, equipment and materials:
 - combs and cutters for machine shearing
 - grinder
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
